

## **NOTICE TO ALL CITY OF HEREFORD UTILITY CUSTOMERS**

The City of Hereford has contracted with Advanced Utility Services, Inc. to replace all water meters within our system. Advance Utility Services, Inc. will be working in alleys and street easements throughout the city until all the meters are replaced. Work may continue after traditional business hours and on weekends.

The meter replacement will begin November 8th, 2022 and last approximately 4 weeks. During this time, normal water service will continue. Temporary service interruption will take place for a short time while your meter is being replaced.

After your meter has been replaced your water may be discolored due to the disruption in the line during replacement. Please run water in a bathtub or utility sink until the water color returns to normal. Your water will be safe for all normal uses once the water color has returned to normal.

If you have questions or concerns, please call (806) 363-7100.
